

CoCombine

Conference in Cambridge:

Competition, Contents and Broadband for the Internet in Europe*

10th - 11th December 2005
Churchill College, University of Cambridge

Call for Papers

Announcing a call for papers for a conference focusing on competition in the internet, contents of the internet, and the impact of broadband technology in Europe.

The conference covers many facets of the internet in economics and related disciplines. Some examples might include (but are certainly not limited to) peering and transit, internet exchange points, regulation and competition policy, modelling the internet, assessing the likely future of the internet, and specific case studies. Empirical, theoretical and policy based papers are all welcome.

Please email a long abstract (no more than 5,000 words) detailing your potential contribution to *both*:

Daniel Sgroi (daniel.sgroi@econ.cam.ac.uk)

Emanuele Giovannetti (e.giovannetti@econ.cam.ac.uk)

The closing date for submissions is **1st November**, and you will be informed of the decision of the programme committee shortly after.

After the conference, a selection of papers presented at the conference will be considered for publication in an international refereed journal.

Accommodation

Accommodation and meals will be provided. There is no conference fee, but travel expenses cannot be reimbursed.

There will be room for participants who do not wish to present, though this will depend upon the availability of places. Please contact us as soon as possible.

For further conference details, go to **www.cocombine.org**.

More information about the conference venue, go to
www.cam.ac.uk and **www.chu.cam.ac.uk**.
